

2026 ISEG-GGSD MEGA-SYMPOSIUM

BULLETIN 4.1: CALL FOR ABSTRACTS FORUM/SPECIAL SESSION ORGANIZERS/LEADERS, PANELISTS AND SPONSORS

14th International Symposium on Environmental Geotechnology and Global Sustainable Development

in conjunction with

2026 Global Geo-Ecosystems and Sustainable Development Symposium

Maanzoni 680 Hotel, Muindi Mbingu Street, Nairobi, Kenya - August 9, 2026 to Sunday, August 16, 2026.

Nairobi, Kenya

Map of Africa showing Kenya

Nairobi, Kenya

organized
by

Global Institute of Sustainable Development, Advanced Analysis and Design (GISDAAD), Concord, NC, USA (Global headquarters) and Abuja, Nigeria.

in collaboration with

▪ The International Society of Environmental Geotechnology (ISEG), Nanjing, China.	▪ International Center for Community Development (ICCD), Concord, NC, USA.
▪ The African Academy of Sciences (AAS), Nairobi, Kenya.	▪ Hefei University of Technology
▪ Future Earth, South Africa.	▪ Future Africa Institute, University of Pretoria, Pretoria, South Africa.

OBJECTIVES AND FOCUS OF THE TWO-PART MEGA SYMPOSIUM

This expanded two-part ISEG/GGSD-2026 Mega-Symposium is an outgrowth of 13 regular ISEG conferences/symposia which started in 1993, and many other forums with the continuing objective of applying technical and social science knowledge from a diversity of disciplines to address critical issues in sustainable development as follows:

▪ ISEG/GGSD-2026 Mega-Symposium Part A: 14th International Symposium on Environmental Geotechnology and Global Sustainable Development Part A will focus on fundamental aspects of Environmental Geotechnology to be treated by experts from various parts of world, such as researchers, practicing analysts, educators and engineers to present research papers and exhibitions that will cover theoretical modeling, innovative experimentation techniques, new equipment designs, field studies and demonstration projects. Among the major issues and sub-disciplines that will be treated in several sessions are: • Constitutive and numerical modeling of geomaterials • Failure models of geomaterials (cracking and other forms of deformation), and mechanical excavation of geomaterials • Mechanics of geohazards and ground subsidence • Thermal, radiation and chemical processes in geomaterials • Geoslope analyses, geofabrics and other stabilization methods • Rock mechanics, mining and geomaterials processing • Geothermal systems for energy production; gas transport in the sub-surface; and carbon capture and disposal in geomedial • Characterization and laboratory methods in geomaterials • AI and robotics applications in environmental geotechnology • Innovative geomonitoring and field mapping techniques • Geoenvironmental aspects of climate change • Geohydrology of water and contaminant transport • Irrigation of geomedial and conservation agriculture • Erosion/flow of granular materials and dust control systems • Waste disposal and containment systems in geomedial • Design, construction, maintenance and rehabilitation of geostructures and systems • Contaminated site remediation and waste containment techniques • Soil stabilization with innovative materials (e.g. plastics, polymers and fibers) • Biogeotechnology and related analytical support systems. • Post-war landmine detection techniques • Geochronology, including isotopes dating of geomaterials • Marine geotechnics and mineral explorations • Lunar and Marsian Excavation geotechnics • Geo-medical, geo-magnetic and geo-electrical materials, and their application	▪ ISEG/GGSD-2026 Mega-Symposium Part B: 2026 Global Geo-Ecosystems and Sustainable Development Symposium Part B is the most recent compliment of the traditional ISEG conferences that have been held since 1993. The continuing objective of Part B of this Mega-Symposium is application of technical and social science knowledge from a diversity of disciplines to address critical issues in sustainable development. This will cover cross-disciplinary analyses of geoenvironmental issues across many socioeconomic sectors such as: • Elements of sustainable development and green economy • Environmental laws and global treaties • Environmental policy and regulatory frameworks • Ecological/forestry systems and blue economy • Climate change impacts mitigation and adaptation • Contaminant exposure and occupational health • Energy systems and environmental sustainability • Agriculture and environmental systems • Monitoring and visualization systems for risk assessment and decision support • Contaminated sediments in rivers and lakes • Waste recycling and wastewater management; • Contaminant exposure pathways and noise pollution • Natural disasters disaster/emergency response systems • Groundwater, surface water and air pollution • Waste disposal and containment systems • Soil erosion and stabilization management • Land/environmental conflict resolution techniques • Mine site rehabilitation and tailings management systems • Environmental impact assessments and auditing techniques • Oil spills assessments and insurance systems • Environmental education and indigenous knowledge systems in environmental management and environmental justice • Youth and gender capacity development • Environmental data archiving • Science diplomacy for environmental conflict resolution health • Environmental law, standards and enforcement • Folklore and Poetry • Environmental biotechnology and restoration • Natural resources and wildlife management
---	--

14th International Symposium on Environmental Geotechnology and Global Sustainable Development

in conjunction with

2026 Global Geo-Ecosystems and Sustainable Development Symposium

2026 ISEG-GGSD MEGA-SYMPOSIUM

Nairobi, Kenya, Sunday, August 9, 2026 to Saturday August 15, 2026.

Organized under the auspices of a consortium of organization: the International Society of Environmental Geotechnology (ISEG) Headquartered at Nanjing University, Nanjing, China; the Global Institute of Sustainable Development, Advanced Analysis and Design (GISDAAD), Concord, NC, USA (Global headquarters) and Abuja, Nigeria; the African Academy of Sciences (AAS), Nairobi, Kenya; the International Center for Community Development (ICCD), Concord, NC, USA; Future Earth, South Africa; University of Johannesburg, Johannesburg, South Africa; International Forum for Peace and Diplomacy (IFPD); University of North Carolina, Charlotte (UNCC), NC, USA. Email: iseg@nju.edu.cn | Planning Secretariat Address: Gabon Street, EFAB Metropolis Estate, Karsana, Gwarimpa, Abuja, FCT, Nigeria; Contact: Mrs. Helen Ajuzieogu C; Email: ajuzieoguhelencrystal@gmail.com; Tel: +234 806 394 7292 Website: <https://www.iseg-ggsd.com.ng/>

May 26, 2026

SYMPOSIUM CHAIRMAN'S INVITATION LETTER TO PARTICIPANTS

Dear Sir/ Madam,

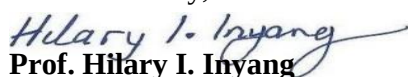

On behalf of the International Organizing Committee, consortium of supporting organizations and leaders of forums and special sessions of our Mega-Symposium, I take this opportunity to invite you to participate in the upcoming one-week-long event on sustainable development across several critical scientific, technological and socioeconomic sectors. This expanded two-part ISEG/GGSD-2026 Mega-Symposium which will also include special forum tracks by several organizations, keynote speeches, shortcourses, special sessions on critical issues, and regular sessions, is an outgrowth of 13 regular ISEG conferences/symposia which started in 1993, and many other forums with the continuing objective of applying technical and social science knowledge from a diversity of disciplines to address critical issues in sustainable development. Within the Mega-Symposium are mini-events and special tracks that will add to part A and part B. Examples are the South African Energy Transition Forum (SAETF), Global Youth Sustainable Development Forum (GYSDF), International Science Diplomacy Forum (ISDF), Mid-career Engagement and Training Workshop for African Professionals; African Institutes/BRICS Exposition and Research Forum organized by the Human Science Research Council of South Africa; Middle East Water Quality Science and Management Forum (MEWQSMF); Innovative Oil and Gas Systems Forum (IOGSF); AAS Frontier Science Forum (AFSF); and the BrownBard International Cultural and Literary Festival (BICLF) that will feature music, poetry readings, African fashion show and cultural dances from various countries.

Kenya is known for great wildlife, beautiful sceneries and museums. It is a highly reputable country as regards tourism. Therefore, the Mega-Symposium participants have the opportunity to register for a very exciting Safari to some Kenyan parks as well as museums. A Nairobi City tour will also be organized. More information is provided on the Mega-Symposium website: <https://www.iseg-ggsd.com.ng>. Interested participants can go ahead and register on the website and book any of the hotels highlighted in this Bulletin at various room-night rates. The main Mega-Symposium hotel is Maanzoni 680 Hotel while the rest are located close by within walking distance. Participants are advised to pre-register for this Mega-Symposium before June 30, 2026 to beat the expected rush.

Being that Nairobi, Kenya allows is the United Nations capital for Africa and entry visas upon arrival in Nairobi, participants will find it easy to visit Kenya and take part in this Mega-Symposium which is briefly described in this Bulletin 4.0 and website <https://www.iseg-ggsd.com.ng> pending the development of the full program of the Mega-Symposium by June 25, 2026. The planning schedule of this Mega-Symposium is provided on page 3 of this bulletin. Although we suggest that participants register early as made possible on the website <https://www.iseg-ggsd.com.ng>, we would like to indicate that registration will still be possible all the way to early August, 2026. Payment instructions for Symposium registration, session sponsorship, Safari tour participation and BICLF participation are provided on the website. Participants from organizations that would like to propose and sponsor special sessions are advised to do so by contacting Mrs. Helen Ajuzieogu - helen.gisdaad@gmail.com to discuss, while organizations that would like to sponsor this event should contact Dr. James Mushori via Email: jameskenya23@yahoo.com, and WhatsApp: +254 721 397073. Regarding presentations of regular and poster papers, interested authors should note the abstracts submission deadline of June 20, 2026.

Once again, I thank you in anticipation of your participation. Greetings!

Yours sincerely,

Prof. Hilary I. Inyang

2026 ISEG-GGSD Mega-Symposium Chair and Chief Host

CC: Mrs. Helen Ajuzieogu, Symposium Coordinator
Prof. Chao-Sheng Tang, Part A International Scientific Committee Chair
Prof. Thokozani Simelane, Part B International Scientific Committee Chair

Part A will also cover ISEG Council meetings, paper award ceremonies and closing dinner for participants of Part A. ISEG will solicit for new members from various global regions to sustain its heritage of outreach to experts, including analysts, researchers and policymakers. The best papers on the thematic issues will be selected for reviews and publication in special editions of reputable peer-viewed international journals such as *Environmental Geotechnology (a journal of the Institute of Civil Engineers of the UK)*.

Part B will also involve keynote lectures, regular 30-minute presentations of forum papers, panel discussions, debates, presentation of award to the best papers, and special revival/launching of the Global Alliance for Disaster Reduction (GADR) by the Symposium host organization - Global Institute of Sustainable Development, Advanced Analysis and Design (GISDAAD). The Symposium will end with a dinner and cultural event. **The website to register for the Mega-Symposium is <https://www.iseg-ggsd.com.ng/>.**

MEGA SYMPOSIUM PLANNING CALENDAR	
DATE	PLANNING ACTIVITY
August 30, 2025	▪ Release of Internal Bulletin 2
October 10, 2025	▪ Release of Bulletin 3: Call for Abstracts , Sponsored-Session Proposals and Exhibitions.
May 30, 2026	▪ Deadline for Submission of Sponsored-Session Proposals.
May 30, 2026	▪ Deadline for Submission of Shortcourses Plans.
June 20, 2026	▪ Deadline for Online Submission of 4-Page Abstracts using Specified Format.
June 25, 2026	▪ Production of Mega Symposium Program and Call for Registration – Bulletin 4
August 1, 2026	▪ Deadline for Regular Registration ▪ Deadline for Registration for Shortcourses. (https://www.iseg-ggsd.com.ng/)
August 9, 2026	▪ Beginning of the Mega-Symposium Part A
August 15, 2026	▪ Closing Ceremony by 12 Noon of the Mega Symposium
August 15, 2026	▪ BrownBard International Cultural and Literary Festival (BICLF) 2:00 PM – 11:00 PM
August 16, 2026	▪ Mega-Symposium Shortcourses

INSTRUCTIONS FOR ABSTRACT SUBMISSION	
Abstracts for Symposium Part A and Part B	
▪ Submit 4-page abstracts with your name, institution/organization, email address and contact telephone number by June 20, 2026 .	
▪ Please prepare your abstract as a four-page, single spaced, 12-points font size (including diagrams within the 4-page limit).	
▪ Use A4 size paper with 2.5 cm margins top and bottom and 2.0 cm margins on the sides.	
▪ Submit your abstract online at https://www.iseg-ggsd.com.ng/ .	

MEGA SYMPOSIUM STRUCTURE AND SCHEDULE	
PART A and PART B	
Day 1, Sunday, August 9, 2026	▪ Arrival of participants
Day 2, Monday, August 10, 2026	▪ On-Site Registration for Part A and Part B ▪ Opening Ceremony for Part A and Part B ▪ Keynote Presentations for Part A and Part B ▪ Parallel Session Presentations for Part A only ▪ ISEG Council Meeting (evening) ▪ ISEG Elections (evening)
Day 3, Tuesday, August 11, 2026	▪ Paper Presentations: Parallel Sessions for Part A ▪ Poster Papers ▪ ISEG Awards And Prizes and Closing Dinner ▪ Forums and Special Sessions
Day 4, Wed., August 12, 2026	▪ Mid-career Engagement and Training Workshop for African Professionals (8:30 AM – 4:00 PM daily) ▪ Safari Tour of the Nairobi National Park (6 Am - 12 Noon) for Registered Safari Guests ▪ Organized Lunch in Nairobi for Safari Guests (12 noon) ▪ Tour of Nairobi National Museum (3-5pm)
PART B	
Day 5, Thursday, August 13, 2026	▪ On-site Registration for Part B ▪ Relaunching of the Global Alliance for Disaster Reduction (GADR) ▪ Forums and Special Sessions ▪ Parallel Session Presentations ▪ Mid-career Engagement and Training Workshop for African Professionals (8:30 AM – 4:00 PM daily) ▪ Exhibitions
Day 6, Friday, August 14, 2026	▪ Parallel and Poster Session Presentations ▪ Forums and Special Sessions ▪ Special Sponsored Sessions ▪ Exhibitions Continued ▪ Mid-career Engagement and Training Workshop for African Professionals (8:30 AM – 4:00 PM daily) ▪ Global Youth Sustainable Development Forum (GYSDF)
Day 7, Saturday, August 15, 2026	▪ BrownBard International Cultural and Literary Festival (BICLF)
Day 8, Sunday, August 16, 2026	▪ Short Courses

Tourists at the Nairobi National Park

SPECIAL OFFER TO PARTICIPANTS

The Symposium will also cover the following features for enjoyment by participants and their families in Kenya, a country that is noted for tourism. Details of the following offers are provided on the website: <https://www.iseg-ggsd.com.ng/>.

- Several **presentation sessions, discussion panels and forums** focused on **policy, management methods and technologies** on cross-cutting issues about environmental sustainability across several socioeconomic sectors.
- A set of **training workshops** including those on research performance methods, research management methods, climate change impacts assessment and management, natural disaster/hazard management, environmental/health risk exposure assessment, all to be held on Saturday, August 15, 2026.
- A **Youth Sustainable Development Forum (YSDF)** that would bring bright teenagers from around the world to engage in discussions about this critical issues.
- A full-fledged, full day **Safari Tour** of the two most important animal parks and one of the largest zoos in Africa (to be held on Wednesday, August 12, 2026) that will separate the two parts of the Mega Symposium.
- A **Festival Night** on Saturday, August 15, 2026 that will feature cultural dances, poetry renditions and music.

MEGA SYMPOSIUM LEADERSHIP AND PLANNING TEAM

Mega Symposium Chair and Chief Host:

Prof. Hilary I. Inyang, ISEG Honorary President and Founding Chair and Distinguished Professor, Global Institute for Sustainable Development, Advanced Analyses and Design (GISDAAD), Concord, NC, USA and Abuja, Nigeria.

Co-Chairs for Part A:

- **Prof. Shi Bin**, ISEG President and Dean of Suzhou High-Tech Research Institute, Nanjing Univ., Suzhou, Jiangsu, China.
- **Prof. Effiom E. Antia**, ISEG Vice-President for Africa and Professor of Oceanography, Univ. of Calabar, Calabar, Nigeria.
- **Prof. Devendra Narain Singh**, ISEG Vice-President for Asia and D. L. Shah Chair Professor of Innovation, Indian Institute of Technology, Bombay (IIT-B), Mumbai, India.
- **Dr. Sue Struthers**, Mining Environmental Consultant and ISEG Council Member (Europe).
- **Prof. Leticia Galluzzi**, Member of the Board of the International Committee of the History of Technology (ICOHTEC) and Professor in the program on history of Science and Epistemology, Federal University of Rio de Janeiro, Brazil.

Part A International Scientific Committee:

Chair:

- **Prof. Chao-Sheng Tang**, Secretary-General, ISEG and Professor at Nanjing University, and President of Youth Committee of Engineering Geology in China.

Co-Chairs:

- **Prof. Irene M.C. LO**, Chair Professor, Hong Kong University of Science and Technology, Hong Kong.
- **Prof. Joze Kortnik**, Professor, Faculty of Natural Sciences and Engineering, University of Ljubljana, Slovenia.
- **Prof. Bian Zhengfu**, Vice President, China University of Mining and Technology (CUMT), Xuzhou, China.
- **Prof. Shen-En Chen**, Prof. of Structures, Civil and Environ. Eng. Dept. Univ. of North Carolina, NC, USA.
- **Prof. Claudio Mahler**, Emeritus Professor of Geotechnology, Universidade de Rio de Janeiro, Rio, Brazil.

Members (TBI= to be invited):

• Dr. Fidelis Abija (Nigeria) • Prof. Sunyoung Bae (South Korea) • Prof. Bate Bate (China) • Prof. Myint Win Bo (Canada) • Prof. Susan E. Burns (USA) • Prof. Xiaohui Chen (UK) • Prof. Yong-Gui Chen (China) • Prof. Hyunwook Choo (South Korea) • Prof. Nilo C. Consoli (Italy) • Prof. John Daniels (USA) • Prof. Gautham Das (USA) • Prof. Sarat Das (India) • Prof. Yong-Feng Deng (China) • Prof. Andrea Dominijanni (Italy) • Prof. Yan-Jun Du (China) • Mr. Benjamin Essien (Nigeria/US) • Prof. Xuanmei Fan (China) • Prof. Xunchang Fei (Singapore) • Prof. Shijin Feng (China) • Dr. Victor Fodeke (Nigeria) • Prof. T. Cassia de Brito Galvão (Brazil/US) • Prof. Liming Hu (China) • Prof. Andrew Hursthouse (UK) • Prof. Olusegun Ige (Nigeria) • Prof. Fei Jin (United Kingdom) • Prof. Eugeniusz Koda (Poland) • Prof. Jayantha Kodikara (Australia) • Dr. Makarius Lalika (Tanzania) • Prof. Changho Lee (South Korea) • Prof. Anthony Leung (China) • Prof. Eng Choon Leong (Singapore) • Prof. Werner Lienhart (Austria) • Prof. Biao Li (Canada) • Prof. Cheng Lin (Canada) • Prof. Gustavo B. Meneze (USA) • Prof. Mojgan Hadi Mosleh (UK) • Prof. Charles W.W. NG (China) • Prof. Vincent O. Ogunro (USA) • Prof. Brendan O'Kelly (Ireland) • Prof. Frank Otto (Germany) • Mr. Amit Otukar (India) • Prof. Evan K. Paleologos (United Arab Emirates) • Prof. Ennio Marques Palmeira (Brazil) • Prof. Marina Pirulli (Italy) • Prof. Anna Podlasek (Poland) • Prof. Hefu Pu (China) • Prof. Krishna R. Reddy (USA) • Prof. Enrique Romero (Spain) • Prof. Theo Sarris (New Zealand) • Prof. Sreedeeep Sekharan (India) • Prof. Anh-Minh Tang (France) • Prof. Kuo Tian (USA) • Prof. Daniel C.W. Tsang (China) • Prof. Farshid Vahedifard (USA) • Prof. Magdalena Daria Vaverková (Poland) • Prof. Castorina Silva Vieira (Portugal) • Prof. Claudia Vitone (Italy) • Prof. Gonghui Wang (Japan) • Dr. Yongjun Yang (China) • Prof. Albert T. Yeung (Chinese Taipei) • Prof. Fusheng Zha (China) • Prof. Liangtong Zhan (China) • Prof. Feng Zhang (China) • Prof. An-Nan Zhou (Australia) • Prof. Marawan Merrouan (Algeria) • Mrs. Victoria Micheal-Dick (UK) • Prof. Srinivas Pulugurtha (USA) • Prof. Michael McFarland (USA) • Dr. David Blockstein (USA) • Prof. David Kargbo (Iraq) • Mr. Olatunji Lawal • Mr. Godwin Amadasun (Greece) • Dr. Rita S. Senise (Sweden) • Dr. Wayne Jones (USA) • Prof. Shaogang Lei (China) • Dr. Bobgiwe Moni (South Africa).

Co-Chairs for Part B:

- **Prof. Xiaoshun Qin**, Association of China-Africa Smallholder Agriculture (ACASA), University of South Africa (UniSA).
- **Prof. Faten Bahar**, Deputy Director, Future Earth Africa Hub Leadership Center, University of Pretoria, South Africa.
- **Prof. Friday Okonofua**, President, African Academy of Sciences, and Director, Grants and Research Development and Administration, University of Benin, Benin City, Nigeria.
- **Dr. Daniel Nyanganyura**, Director of the Future Earth Africa Hub Leadership Centre, Pretoria, South Africa.
- **Prof. Malik Maaza**, Africa & Int. Relations Manager, iThemba LABS-NRF, Univ. of South Africa, Pretoria, South Africa.
- **Prof. Godwin Mbamalu**, Associate Vice President for Research, Benedict College, Univ. of South Carolina, South Carolina, USA.

Part B International Scientific Committee:

Chair:

- **Prof. Thokozani Simelane**, Professor of Practice, Faculty of Engineering and Built Environment, Univ. of Johannesburg, South Africa.

Co-Chairs:

- **Dr. Nkem Khumbah**, Head of STI Policy Systems, Governance, and Partnerships African Academy of Science (AAS).
- **Prof. Kefei Zhang**, Professor, China University of Mining and Technology (CUMT), Xuzhou, Jiangsu Province, P.R.China.
- **Prof. Aster Gebrekirstos**, Scientist, World Agroforestry (CIFOR-ICRAF), Ethiopia and Germany.
- **Prof. Evan K. Paleologos**, Dir. Engr. Mgt. (MEM) and Project Mgt. (MPM), College of Eng., Abu Dhabi University, Abu Dhabi, UAE.
- **Prof. (Madam) Sharizad Dahlan**, Director, International Sciences, Technology and Innovation Center, UNESCO, Malaysia.
- **Prof. Michael Nxumalo**, Acting Global Hub Director, Africa Hub, Future Earth, South Africa.

Members (TBI= to be invited):

• Prof. Charles Hongoro • Mr. Joseph Habib Sule (Nigeria) • Prof. Raphael Munavu (Kenya) • Prof. Rajaâ Cherkaoui El Moursli (Morocco) • Mr. Miguel Gonzalez (USA/Venezuela) • Prof. Olubayi Olubayi, (Kenya) • Dr. Mkhize Xolile (South Africa) • Dr. Imoh Imoh-Itah (Nigeria) • Prof. Cyprian Ekpo (Nigeria) • Dr. Austin Onwukwe (Nigeria/USA) • Dr. Abebech Abera (Ethiopia) • Prof. Hasan Mohammed (USA) • Dr. Saminu Dagari (Nigeria) • Dr. Wayne Philips (USA) • Dr. Henry Emejio (Nigeria) • Prof. Anthony Okoh (Nigeria) • Chief Noble Akege (Nigeria) • Prof. John Osonwa (Nigeria) • Dr. Abel Udoh (Turkey) • Prof. Mammo Muchie (South Africa/Ethiopia) • Dr. Thompson Makahamadze (USA/Zimbabwe) • Amb. Adeniran Michael Timothy (Nigeria) • Mr. Victor Ibok (Nigeria) • Mr. Imoh Ekpo (Nigeria) • Dr. Thomas Akpan (Nigeria) • Prof. Dali Naidu Arnepali (India) • Dr. Austin Onwukwe (USA/Nigeria) • Mr. Marshal Anako (USA) • Mr. Chukwuma Ngaha (Nigeria) • Maj. Gen. Udaya (Nigeria) • Mr. Sonie Braih (USA) • Dr. James Mushori (Kenya) • Dr. Aniefon (Nigeria) • Mr. Nicholas Amessouw (Ghana) • Ms. Angel Williams (Nigeria) • Prof. Arvin Farid (USA) • Mr. Ismaila Ahmed (Nigeria) • Mr. Sefia Okeoghenemaro (Nigeria) • Prof. John John (Nigeria) • Barr. Ebokpo (Nigeria) • Amb. Rabi Dagari (Nigeria) • Mr. Emmanuel Udedeh (Nigeria) • Mr. Henry Etuk (Nigeria) • Dr. Tribhuwan Prasad (India) • Prof. Chinedu Mmom (Nigeria) • Mr. Promise Amahah (Nigeria) • Chief Joseph Akpan (Nigeria) • Dr. Ekere Ukwang (Nigeria) • Dr. Bosco Okolo-Obi (Nigeria) • Group Capt. Bilal (Nigeria) • Dr. Benedith Ebere (Nigeria) • Mr. Iniobong Nwoko (Nigeria/US) • Engr. Obasi (Nigeria) • Mr. Olusola Kayode (Nigeria) • Mr. Dos Santos Pinto Mandu (Switzerland) • Dr. Kiichi Watanabe (China/Japan) • Dr. L. Rodney Managa (SA) • Engr. Mpho Mphengula (Botswana) • Dr. Jasmina Saric (Switzerland) • Dr. Patrick Ezekiel (Nigeria) • Mr. Praether Cooper (USA) • Dr. Malcolm Field (USA) • Mr. Ibiam Ogejiofor (Nigeria) • Prof. Charles Adetunji (Nigeria) • Prof. John Ifediora (Nigeria) • Dr. Lu Pin (China) • Prof. Aniekan Edet (Nigeria) • Prof. Fu-Sheng Zha (China) • Mr. Remi Abolarinwa (Nigeria).

COMPOSITE PLANNING COMMITTEE OF ISEG/GGSD-2026 MEGA SYMPOSIUM

Chair: Prof. Thokozani Simelane, Professor of Practice, Faculty of Engineering and Built Environment, University of Johannesburg, South Africa.

Co-Chair and Administrative Contact: Mrs. Helen Ajuzieogu (GISDAAD)

Co-Chair and ISEG Secretariat Contact: Prof. Chao-Sheng Tang (ISEG)

COMPOSITE PLANNING COMMITTEE MEMBERS

• Mr. Joseph Habib Sule (Nigeria) • Prof. Sunyoung Bae (South Korea) • Dr. Kai Gu (China) • Prof. Hong-Hu Zhu (China) • Dr. Cheng Zhu (China) • Dr. Qing Cheng (China) • Dr. Zheng-Tao Shen (China) • Dr. Fei Wang (China) • Dr. Zhixiong Zeng (China) • Dr. Cheng-Cheng Zhang (China) • Mr. Peter Nwachukwu (Nigeria) (Session Coordinator) • Mrs. Grace Eneh (Nigeria) (Training Session Liaison) • Mrs. Helen Ajuzieogu (Symposium Coordinator) • Amb. Idah O. K. David (Nigeria) (Music Session Coordinator) • Prof. Anthony Okoh (Nigeria) • Mr. George Onsongo (Kenya) Safari and Museum Visits Coordinator • Mr. Yunusa M. Yusuf (Nigeria) (Technical Coordinator) • Ms. Evin Umanah Ekaete (Nigeria) (Supervisor for Ushers) • Mrs. Nnenna Bassey (Nigeria) (News) • Mr. James Mbat (Nigeria) (Deputy Course Coordinator) • Ms. Tracy Uzoigwe (Nigeria) • Mr. Kris Ekefre (Nigeria) • Mr. Bonny Alaneme (Nigeria) • Ms. Amarachi Cheryl Ogbonnaya (Nigeria) • Dr. Hao Zeng (Spain) • Ms. Ogunjobi Esther (Nigeria) • Mr. Remi Abolarinwa (Nigeria) • Chinatu Orji (Nigeria).

HISTORY OF THE ISEG/GGSD-2026 MEGA SYMPOSIUM

The GGSDS 2026 Symposium is an outgrowth of the regular ISEG conferences/symposium which started in 1993 with the continuing objective of applying technical and social science knowledge from a diversity of disciplines to address critical issues in sustainable development. Some of the more recent symposia are listed below:

- 2024-5th International Society of Environmental Geotechnology Intermediate Symposium and High-Level Forum on Environmental Geo-Engineering, Chair: Prof. Shi Bin, ISEG President.
- 2022 – 13th Int. Symposium on Environmental Geotechnology and Global Sustainable Development, Nanjing, China, Chair: Prof. Shi Bin.
- 2014- 3rd ISEG intermediate symposium, Seoul, South Korea, Chair: Prof. Jai-Young Lee
- 2008 - 9th International Symposium on Environmental Geotechnology and Global Sustainable Development, Hong Kong, China, Chair: Dr. Albert Yeung, Department of Civil Engineering, University of Hong Kong, China and Dr. Irene Lo, Department of Civil and Environmental Engineering, Hong Kong University of Science and Technology, China.
- 2007 - International Conference on Waste Management, Ljubljana, Slovenia, Dr. Joze Kortnik, Dept. of Geotechnology and Mining, Faculty of Natural Sciences and Eng., Univ. of Ljubljana, Ljubljana, Slovenia.
- 2007 - First International Conf. on Environmental Research, Technology and Policy on Africa (ERTEP 2007), Accra, Ghana, Africa, Chair: Prof. Ernest K. Yanful, Chair, Department of Civil Engineering, University of Western Ontario, Canada, N6A 5B9.
- 2005 - International Conference on Energy, Environment and Disasters (INCEED), Charlotte, USA Chairperson: Prof. Hilary I. Inyang, University of North Carolina, Charlotte, USA.
- 2004 - 7th International Symposium on Environmental Geotechnology and Global Sustainable Development, Helsinki, Finland Chairperson: Dr. Jouko Saarela, Finnish Environmental Institute, Helsinki, Finland
- 2002 - 6th International Symposium on Environmental Geotechnology and Global Sustainable Development, Seoul, South Korea Chairpersons: Dr. Won-Pyo Hong, Chung-Ang University, Seoul, Korea
- 2001 - International Symposium on Application of Natural Materials for Environmental Geotechnology, Tokyo, Japan Chairperson: Prof. Hideo Minato, University of Tokyo, Japan.
- 2000 - 5th International Symposium on Environmental Geotechnology and Global Sustainable Development, Belo Horizonte, Brazil Chairperson: Prof. T. Cassia de Brito Galvão, Universidade Federal de Minas Gerais, Belo Horizonte, Brazil
- 1999 - 1st International Symposium on High Altitude and Sensitive Ecological Environment, Nanjing, China Chairperson: Prof. Shi Bin, Nanjing University, China
- 1998 - 4th International Symposium on Environmental Geotechnology and Global Sustainable Development, Boston, USA Chairperson: Prof. Hilary I. Inyang, University of Massachusetts, Lowell, USA.

ISEG/GGSD-2026 MEGA SYMPOSIUM CONTACTS

Overall Planning Headquarters:

No. 6, Gabon Street, EFAB Metropolis Estate, Karsana, Gwarimpa, Abuja, FCT, Nigeria

DESCRIPTIONS OF FORUMS AT THE 2026 ISEG/GGSD MEGA SYMPOSIUM

Several notable organizations and experts are collaborating with the International Organizing Committee of ISEG/GGSD 2026 Mega-Symposium to organize SPECIAL FORUMS to discuss important sustainable development issues. These Special Forums are organized mostly independently by their designated co-chairs/co-organizers with guidance by the leadership of the Mega-Symposium. Each Forum comprises: ***opening remarks by the co-chairs/co-organizers (10 minutes); followed by a keynote lecture/speech (20 minutes) by a speaker that must be selected independently by the session organizers; a panel discussion by five speakers on the stage (60 minutes); followed by a moderated and interactive/question & answer part (20 minutes) with the final 10 minutes of closure remarks by the co-chairs/co-organizers.*** The proceedings of the forums will be recorded for later editing and broadcasts on television and social media networks. In the tables provided below, the SPECIAL FORUMS are briefly described with information on the designated co-chairs/co-organizers. Interested participants in any of the Forums described below are urged to register for the Mega-Symposium at the website: <https://www.iseg-ggsd.com.ng/> to attend the Forum. Participants who want to serve as discussion panelist or keynote speaker at any of the described Forums should directly contact the listed co-chairs/co-organizers through their email addresses and telephone numbers listed for each Forum.

FA.1 FORUM ON GEOMATERIALS FOR SUSTAINABLE DEVELOPMENT

The earth provides the greatest quantity of materials that are used for the construction of facilities and provision of services to humanity across several industrial sectors. This forum will focus on the utility, characterization and deployment of geomaterials in support systems for the sustainable development of societies. Both natural and modified geomaterials will be covered in the keynote presentation and panel discussions, among them, soil, rocks, nanomaterials, dredged geomaterials, recycled materials, minerals and geosynthetics. The role of rare minerals in national economic development programs will also be discussed. This special session is jointly organized by the Global Institute for Sustainable Development, Advanced Analyses and Design (GISDAAD), Charlotte, USA; the Environmental Geotechnology Research Group of the Indian Institute of Technology-Bombay (IIT-B), Mumbai, India; and the Geological Engineering Division of the School of Earth Sciences and Engineering of Nanjing University, Nanjing, China. Interested Participants are requested to register for the full Mega-Symposium at: <https://www.iseg-ggsd.com.ng> and indicate interest by contacting the listed Co-Chairs and Co-Organizers.

FA. 2 FORUM ON ADVANCED GEOMONITORING SYSTEMS

Geomonitoring systems are essential at various scales in the development and use of infrastructure at the planning, construction, operational and maintenance phases. Both traditional and advanced systems are useful and can be complementary, depending on the type and design of the structural or environmental system involved. Among the several types of sensors used to detect structural failures, material flows/leakages, deformations and chemicals are electro-chemical sensors, fiber-optic sensors, sonic probes, motion detectors, radiation sensors and heat detectors. In this forum which is jointly organized by NanZee Sensing Technology Co. Ltd. of Suzhou, Jiangsu Province, China and United Infrastructure Systems, Ltd of Abuja, Nigeria, the utility of geomonitoring systems will be discussed. Organizations and individuals who would like to co-sponsor and/ or play leading roles in this session are requested to visit the website: <https://www.iseg-ggsd.com.ng>, register and contribute as directed.

CO-ORGANIZERS

- Prof. Shi Bin (President, ISEG) Email: shibin@nju.edu.cn
- Mr. Wang Hongxian, Email: wanghx@nzsensing.com

FA.3 FORUM ON DAMS, LEVEES AND LARGE- SCALE GEOENVIRONMENTAL INFRASTRUCTURE

Large-scale structural and geotechnical systems are implemented in many countries to control and utilize water flow in streams, rivers, lakes and ocean fronts. The principal structures are dams, levees, embankments and spillways for flood control, electric power generation, and water conveyance for irrigation or industrial use. This forum will address the utility, challenges and opportunities for improvement and use of this category of infrastructure with advanced materials and monitoring technologies to support sustainable development. This special forum is organized by the Nigerian Hydropower Professional Association (NHPA) and other international agencies. Organizations and individuals who would like to co- sponsor, serve as panelists or participate in the discussions at this forum, are requested to register for the Mega-Summit at <https://www.iseg-ggsd.com.ng> and contact the listed Forum chairs/co-organizers with their contact information.

CO-ORGANIZERS

- Prof. Shen-En Chen, Email: schen12@charlotte.edu , Tel: +1 704 305-6866
- Mr. Imoh Ekpo Email: ekpo.imo12@gmail.com, Tel: +234 803 599-5582
- Dr. Maroof Kola Lawal, Email: maroofkular@gmail.com Tel: +234 805 666 7954

FA.4 FORUM ON EUROPEAN MINING SYSTEMS

Europe is a leader in advanced mining systems, covering mineral exploration technology, mine surveys and valuation; excavation technology; mineral characterization and beneficiation techniques; and mineral processing, packaging and sales. This Forum will focus on management of these processes to support increasing global demand for key minerals, some of which are still sourced from Europe. The following ISEG Council members will co-chair and organize this forum. Organizations and persons who would like to co-sponsor this forum, serve as panelists or participate in the discussion at the forum, are requested to register for the Mega-Summit at website <https://www.iseg-ggsd.com.ng> and contact the forum Co-chairs/ Co-organizers...

FA.5 FORUM ON COMPUTATIONAL SYSTEMS AND DATA FOR SUSTAINABLE DEVELOPMENT.

Computational sustainability is defined as the “leverage of artificial intelligence, data analytics and mathematical modeling to balance environmental, economic and societal needs.” Interactions among relevant parameters are multi-dimensional and complex. They need to be devolved into scalable solutions. As the leading African intellectual organization with an important role in the implementation of the Science, Technology and Innovation Strategy for Africa (STISA) 2034, and the Africa Agenda 2063, the Africa Academy of Science (AAS) is organizing this forum to discuss greater use of computational systems and data centers to support the sustainable development of Africa. Organizations and individuals who would like to co-sponsor and/or play leading roles in this forum, are requested to visit the website: <https://www.iseg-ggsd.com.ng>, register, and contribute as directed. The listed Forum Chairs/Co-organizers should be contacted.

CO-ORGANIZERS

- Dr. Nkem Khumbah Email: n.khumbah@aasciences.africa, Tel: +1 (734) 255-0158

FA.6 FORUM ON GEOHAZARDS PREVENTION AND CONTROL

Geohazards such as earthquakes, mudslides, volcanic eruptions, soil liquefaction, avalanches and landslides threaten built infrastructure, ecological systems and human lives worldwide. As human population grows in land-limited areas, there are growing incursions into zones that have prevalence of geohazards. This Forum which is jointly organized by the Infrastructure and Environmental, Systems (INES) Doctoral Program of the University of North Carolina, Charlotte, USA, and the Emerging Disaster Program of the China University of Mining and Technology Xuzhou, China as well as GISDAAD, Charlotte/Concord, NC, USA, will focus on necessary policies, design measures and other mitigation and control measures to minimize the ravages of geohazards. Organizations and individuals who would like to co-sponsor and/or play leading roles in this session are requested to visit the website: <https://www.iseg-ggsd.com.ng>, register, and contribute as directed. The listed Forum Chairs/Co-organizers should be contacted.

CO-ORGANIZERS

- Prof. Hilary I. Inyang, Email: h.inyang26@gmail.com, Tel: +234 814 569 6364
 - Prof. Bian Zhengfu Email: bianzhengfu@cumt.edu.cn,

FA.7 FORUM ON REMOTE SENSING, AND ADVANCED SATELLITE MONITORING SYSTEMS

Many development projects cover very large expanses of space (land, rivers and lakes/seas). Among such structures are rail lines, roads, long-span bridges, funnels, pipelines and cable lines. It is usually necessary to evaluate the characteristics of the terrain and/ or body of water over which the structures will be lain or buried. On-site evaluation systems are usually implemented subsequent to initial airborne remote sensing over large areas during site selection and/or route alignment processes. Satellite monitoring systems are also useful in land use evaluations in forestry, agriculture and pest control, as well as vulnerability assessments. Geographic Information Systems (GIS) can be used in combination with innovative monitoring and surveillance systems to characterize extensive sites geotechnically and analyze hazards and vulnerability of natural and constructed systems with capacity for visualization. In this Forum, panelists will discuss these utilities and others, following a targeted keynote lecture. New technologies will also be discussed. Organizations and individuals who would like to co-sponsor and/or play leading roles in this session are requested to visit the website: <https://www.iseg-ggsd.com.ng>, register, and contribute as directed. The listed Forum Chairs/Co-organizers should be contacted.

CO-ORGANIZERS

- Prof. Keifei Zhang, Email: profkzhang@cumt.edu.cn, Tel: +61 408 592 891
- Prof. Wenwu Tang, Email: WenwuTang@charlotte.edu, Tel: +1 704 687 0731
 - Prof. Bian Zhengfu Email: bianzhengfu@cumt.edu.cn

FA.8 FORUM ON AFRICAN ENERGY TRANSITIONS

Energy transition is a key issue in Africa as most countries try to transform their energy systems to deal with targeted industrialization and the need to address global climate change. In the case of Africa, equity in energy transitions from traditional energy systems that focus on carbon-powered systems, (particularly, coal) is a critical parameter. In this Forum which is organized by the Human Resources Research Council (HSRC) of South Africa and the University of Johannesburg, the steps that are being taken by South Africa on just energy transition will be discussed. The listed Forum Chairs/Co-organizers should be contacted by interested sponsors and participants.

CO-ORGANIZERS

FA.9 FORUM ON INNOVATIONS AND OPPORTUNITIES IN THE OIL AND GAS INDUSTRY

Despite global efforts to decarbonize energy systems in transportation, agriculture and other sectors that require the powering of machines, oil and gas still remain, the primary fuel for operation of machines for the foreseeable future. This circumstance has great impacts on the wealth and geopolitical postures of nations. More and more oilfields are being discovered and developed through deployment of novel exploration and extraction techniques. There is increase in refining and shipments of both raw and refined oil products. Numerous petroleum products service the economies of all countries. In this Forum, a keynote speech and a discussion panel will focus on innovation and opportunities in the oil and gas industry, with the aim of promoting collaboration.

CO-ORGANIZERS

- Mr. Emmanuel Udede, Email: emman.udedeh@gmail.com, Tel: +234 805 195 4839

FA.10 FORUM ON URBAN HOUSING INFRASTRUCTURE DEVELOPMENT AND RELATED INFRASTRUCTURE DEVELOPMENT

It is estimated that more than one billion people worldwide, live in informal settlements, slums and other overcrowded wards that lack basic amenities, security and sanitation. To meet housing needs by the sunset of the Sustainable Development Goals (SDGs) in 2030, it is estimated that about 96,000 new affordable houses need to be built daily. There is also the global affordability gap, driven by income disparity and growing relative urbanization in the Global South. This Forum will address the global housing crisis with exploration of opportunities and methods of reducing housing costs and improving housing policies in both the developed and emerging countries. Organizations and individuals who would like to co-sponsor and/or play leading roles in this session are requested to visit the website: <https://www.iseg-ggsd.com.ng>, register, and contribute as directed. The listed Forum Chairs/Co-organizers should be contacted.

FA.11 FORUM ON BROWNFIELDS AND MINED LAND RECLAMATION

Mining and industrial activities have generated wealth to support local, regional and national economies throughout human history. However, some negative impacts on the environment and human health have complemented economic gain from mining and other industrial activities. It is estimated that between 1985 and 2022, surface mining activities alone disturbed more than 40,000 square kilometers of land globally, out of which about 29 square kilometers was reclaimed. Many municipalities are dotted with old and abandoned industrial sites that are polluted as a legacy of material processing operations that have moved elsewhere. These “Brownfields” are being reclaimed for other uses as the scarcity and cost of land in urban areas continue to increase. Many policies and technical systems have been deployed. This forum will focus on land use and rehabilitation policies, biodiversity, conservation, and contaminated site treatment technologies such as bioremediation, grouting, top soil replacement and phytoremediation. This forum is co-organized by the Ecological Research Group of the China University of Mining and Technology (CUMT), Xuzhou, China and GISDAAD, Charlotte, USA/ Abuja, Nigeria. The listed Forum Chairs/Co-organizers should be contacted.

CO-ORGANIZERS

- Prof. Bian Zhengfu, Email: bianzhengfu@cumt.edu.cn,
 - Dr. Lu Ping, Email: lupingcumt@126.com,
- Prof. Shaogang Lei (CUMT), Email: lsgang@126.com or shan45@gmail.com
 - Mr. Melkamu Abebe (BDU) Email: melka.abebe@gmail.com

FA.12 FORUM ON ROCK AND SOIL MECHANICAL EXCAVATION TECHNOLOGY FOR TUNNELS PIPELINES, UTILITY CONDUITS AND STORAGE CAVERNS

Many civil and mining engineering operations involve geomaterial (soil and rock) excavation. Among such operations are aggregate mining; excavation of rock chambers for waste disposal, utility trenches for fluid conduits and power lines; and under cutting of coal beds; construction of oil and gas pipelines; and development of fluid storage caverns in rock. There are two main excavation method for geomaterials: mechanical excavation and blasting, with the former having the advantages of easier control of excavated space dimensions and minimal generation of fugitive dust and fly-rock. Safety considerations in urban areas may rule out blasting. Optimization of geomaterial excavation processes in terms of energy requirements, excavation rates and environmental factors is essential in project feasibility and cost assessments. This Forum will focus on the factors outlined above, as well as the features of various geomaterial fragmentation processes. The listed Forum Chair/Co-organizer should be contacted.

CO-ORGANIZERS

- Prof. Hilary I. Inyang, Email: h.inyang26@gmail.com, Tel: +234 814 569 6364

FA.13 FORUM ON COASTAL MARINE SYSTEMS

A coastal marine environment is defined as the margin where land contacts saltwater. It is estimated that the total length of marine coastlines globally is about 0.62 million Kilometers. Put in perspective, that length is about 15 times the length of the equator of about 29.7 million square kilometers (20%) of the earth's total land surface. Coastal zones hold 40% of the global population (about 2.4 billion). Coastal marine zones are areas of dense population, prolific infrastructure development, high economic development activities, sensitive environmental systems and fast-changing climatic factors. This forum which organized by the African Vice-Presidency of ISEG in collaboration with the Faculty and Institute of Oceanography of the University of Calabar, Nigeria, the Africa Center of Excellence for Wastes to Energy Studies of the Federal University of Environment and Technology, Koroma /Saakpenwa, Nigeria and GISDAAD, Charlotte, USA, will address the importance of geohydrological, climatic and socioeconomic factors of coastal marine systems and the hazards that need to be addressed through policy and technical systems. The listed Forum Chairs/Co-organizers should be contacted.

CO-ORGANIZERS

- Prof. Effiom E. Antia, Email: e_antia@yahoo.co.uk Tel: +234 803 706 4846
- Prof. Hilary I. Inyang, Email: h.inyang26@gmail.com, Tel: +234 814 569 6364
 - Dr. Fidelis Abija, Email: fidelabija@yahoo.co.uk Tel: +234 803 896 2622

FA.14 FORUM ON ICT AND ARTIFICIAL INTELLIGENCE (AI) FOR SUSTAINABLE DEVELOPMENTS

The Fourth Industrial Revolution (4IR) comprises Internet of Things (IOT), Artificial Intelligence, Big Data Centers and Analytics, Robotics, Nano-systems and Space-based Sensing, in its most comprehensive definition. The capacity and performance of each country or global region on a combination of the utilities mentioned above, will continue to determine her stealth, health and wealth in the foreseeable future. They all impact sustainable development beyond the sunset year of the United Nations. This Forum will focus on the features, roles and necessary implementation schemes of these innovative technologies within the context of sustainable development at all jurisdictional scales. The listed Forum Chairs/Co-organizers should be contacted.

CO-ORGANIZERS

- Prof. John Justus Okon, Email: jjokon@gmail.com Tel: +18455360826
- Mr. Marshall Anako, Email: marshallanako@gmail.com, Tel: +1 623 570 8306

FA.15 FORUM ON CLIMATE CHANGE ON THE ENVIRONMENT AND LIVELIHOOD IMPACTS

Human livelihood is threatened by climate change globally through infrastructure destruction economic destabilization, degradation of natural resources, threats to human health and rain fed agriculture; and generated hazards such as aggressive tidal waves, floods and associated destruction of habitats. Improved enlightenment about the nexus among climate change generation and impact factors will lead to better planning and implementation of both mitigation and adaptation schemes and projects to improve resilience to climate change at all scales. The Forum will focus on policy measures, technical systems and economic schemes that can improve the resilience of society to climate change. The listed Forum Chairs/Co-organizers should be contacted.

CO-ORGANIZERS

- Prof. John Osonwa, Email: johnosonwa@gmail.com, Tel: +234 815 519 0656

FB.1 FORUM ON INTERNATIONAL SCIENCE DIPLOMACY, AND SCIENCE FOR PEACE

Global sustainable development is threatened by ineffectiveness and lack of diplomacy in ways that lead to socio-political, economic and military conflicts among countries and regions. These conflicts have led to economic devastation and lowering of human potential in many communities and regions of the world. Any human activity that can convene tribes, communities and nations across political philosophies, religions, gender, socio-economic, status and nationalities for humanity's good is desirable. Science, the systemic search for the nature of things and events for possible use in support of livelihoods, is a tool that can be used more in sustainable development efforts. Science diplomacy involves extension and sharing of scientific utilities. In practical terms within the context of sustainable development, science diplomacy covers joint research/investigations, joint expeditions, co-authorships, debates in science, seminars, provision of evidence for resolution of claims and other science-based resolutions by diverse sets of organizations to defuse political and socio-economic tensions and conflicts for humanity's sake. Organizations and individuals who would like to co-sponsor and/or play leading roles in this session are requested to visit the website: <https://www.iseg-ggsd.com.ng>, register, and contribute as directed. The listed Forum Chairs/Co-organizers should be contacted.

CO-ORGANIZERS

- Prof. Thokozani Simelane Email: tsimelane@hsr.ac.za, Tel: +27 79 269 0663

FB.2 FORUM ON GLOBAL PEACE, DIPLOMACY AND SOCIOECONOMIC DEVELOPMENT

Sustainable development is not possible in an environment that is ravaged by frequent conflicts and wars. The United Nations and many economic bloc organizations have developed mechanisms for facilitation of diplomatic solutions to conflicts among nations and regions. Among such mechanisms are those of the Association of Southeast Asian Nations (ASEAN), the African Union (AU), the European Union (EU), the Organization of American States (OAS), the Community of Latin American and Caribbean States (CELAC) as well as Switzerland. The primary instruments are negotiation, dialogue and mediation. This Forum will cover the use of these instruments to defuse international and regional conflicts that can constrain sustainable development. Organizations and individuals who would like to co-sponsor and/or play leading roles in this session are requested to visit the website: <https://www.iseg-ggsd.com.ng>, register, and contribute as directed. The listed Forum Chairs/Co-organizers should be contacted.

CO-ORGANIZERS

- Dr. Xiaoshun Qin, Email: xiaoshun.qin.SA@gmail.com, Tel: +27 72 792 3988
- Prof. Hilary I. Inyang (GISDAAD) Email: h.inyang26@gmail.com, Tel: +234 814 569 6364

FB.3 FORUM ON EDUCATION FOR SOCIETAL SUSTAINABLE DEVELOPMENT

Education which can be defined as the process and methodologies for empowering the mind, is a stand-alone goal (Goal 4) of the United Nations Sustainable Development Goals (SDGs) 2030 which targets inclusive and equitable education for all. It also permeates all other SDGs. Globally, SDGs require integration of learning, skill and knowledge systems, from Indigenous Knowledge Systems (IKS) to novel knowledge systems. At the level of individuals, education should extend human cognitive, socio-emotional and behavioral capacities. As regards support systems, there is the necessity to improve educational facilities, equipment, management processes, curricula and entrepreneurship support systems for educational institutions. This Forum will focus on appraisal of all the issues mentioned above by a panel of experienced personnel who will interact with other participants. Organizations and individuals who would like to co-sponsor and/or play leading roles in this session are requested to visit the website: <https://www.iseg-ggsd.com.ng>, register, and contribute as directed. The listed Forum Chairs/Co-organizers should be contacted.

CO-ORGANIZERS

- Mr. Daniel King Ebong Email: anyinbasi1@gmail.com, Tel: +234 806 834 1717

FB.4 FORUM ON FAITH PARAMETERS OF SUSTAINABLE DEVELOPMENT

Sustainable development covers and is fed by religious faith elements, from the construct of societal laws, most of which have evolved from religious principles, to direct education of citizens in faith-based institutions. It is estimated that 80% of the global population is attached to religious beliefs directly and informally with impacts on societal values, social justice and environmental stewardship. Religious groups have also been engaged in mobilization of grass root resources for education and poverty alleviation. Inter-faith collaboration supports sustainable development through conflict resolution, enfranchisement and enlightenment of congregations. This important Forum will be chaired and moderated by Pastor Femi Lazarus with intent on producing a documentary for later broadcasts globally. Organizations and individuals who would like to co-sponsor and/or play leading roles in this session, are requested to visit the website: <https://www.iseg-ggsd.com.ng>, register, and contribute as directed. The designated Forum Chairs/Co-organizers should be contacted.

CO-ORGANIZERS

- Pastor Femi Lazarus, Email: femilazarus18@gmail.com
- Ms. Margaret Ogbolu, Email: margaretogbolu@gmail.com Tel: +234 905 583 0484

FB.5 FORUM ON SOCIAL SYSTEMS, HERITAGE AND SUSTAINABLE DEVELOPMENT

Although consensus is difficult to reach on the impacts of social systems and heritage on sustainable development on societies, examples can be cited to support different sides of the issue. Aspects pertain to sizes of individualism, collective farming, centralized versus dispersed governance systems as well as the role of custom on acceptance of innovation. This Forum will focus on discussions of these factors within the context of sustainable development of societies. Organizations and individuals who would like to co-sponsor and/or play leading roles in this session are requested to visit the website: <https://www.iseg-ggsd.com.ng>, register, and contribute as directed. The listed Forum Chairs/Co-organizers should be contacted.

CO-ORGANIZERS

- Dr. Rita S. Senise, Email: rsenise@usp.br
- Prof. Leticia Galluzzi, Email: galluzzi@nce.ufrj.br, Tel: +55 21 3938-3324
- Dr. Tompson Makahamadze, Email: tompsonmakah@gmail.com, Tel: +1 540 931 5782

FB.6 GLOBAL YOUTH SUSTAINABLE DEVELOPMENT FORUM

Within the global population of 8 billion people, about 1.8 billion people are between the ages of 10 and 24, constituting about 16%. With respect to designation, the “youth” age range, there is no universal convention but “youth” typically applies to the age range of 18-45 years in demographic planning process of countries. Youth in the categorization scheme of the World Health Organization applies to the age range of 15-24 years. Research in neuroscience indicates that the prefrontal cortex of the brain which is the segment that controls management proficiency and option selection, continues to mature through adolescence years (10-19 years) into the early stages of a person’s adulthood. Youth are considered to be agents of change, advocates and monitors of societal improvement organizations, digital innovators and future leaders. Their altruistic aspirations and engagement are essential to sustainable development sectors such as environmental stewardship; mobilization to support social equity and peace; and innovations in fashion, arts and entertainment. This Forum will focus on opportunities and challenges of expanding the engagement of youth in sustainable development in various global regions. Organizations and individuals who would like to co-sponsor and/or play leading roles in this session are requested to visit the website: <https://www.iseg-ggsd.com.ng>, register, and contribute as directed. The listed Forum Chairs/Co-organizers should be contacted.

CO-ORGANIZERS

- Ms. Tracey Uzoigwe, Email: livingearth.tracy@gmail.com, Tel: +234 703 751 9110

FB.7 FORUM ON LEGAL SYSTEMS, GOVERNANCE AND SUSTAINABLE DEVELOPMENT

Sustainable development initiatives and projects are planned and implemented under different governance and legal systems in different countries. This situation relates to the four critical parameters of program implementation: jurisdictional authority, legality, allocated budget (financing) and implementation schedule (time). Some programs such as climate change mitigation, large-scale disaster management operations, global air pollution monitoring, pandemics control, international air traffic control, and marine ecological protection are at multi-national scales and need multi-lateral cooperation and management systems. This Forum will focus on the mechanisms for reconciling jurisdictional and governance system challenges to effectively and efficiently address global geo-environmental and sustainable development challenges. The underlined Forum Chairs/Co-organizers should be contacted.

CO-ORGANIZERS

- Prof. Cyprian Edward-Ekpo, Email: cyprian.edward@ilawdun.us, Tel: +234 803 896 6860

FB.8 FORUM ON AQUIFERS AND SURFACE WATER RESOURCES

The latest edition of the State of Global Water Resources (for 2024 released in 2025) developed by the World Meteorological Organization (WMO) indicates a record of heat, climate extremes and proliferation of water-related impacts globally. Global surface temperatures reached 1.55 degrees centigrade above pre-industrial levels, making 2024 the hottest year in more than a century and a half. While ravaging floods occurred in many regions, such as central Europe, West Africa, East Africa and some parts of Asia, drought were experienced in South America and South Africa. Glaciers lost more ice, resulting in sea level increase. About 60% of catchment areas globally had abnormal river discharges. These abnormalities extended to groundwater levels. Only 38% of monitored water wells had normal levels. The rest experienced severe depleted or extremely high water levels. Obviously, there are inter-linkages among hydrological conditions, water security, economic development and peace in both river basins and drylands globally, especially in countries of the Global South. In this Forum, regional water availability and quality issues will be discussed by a panel of experts following a keynote lecture on the issue. Organizations and individuals who would like to co-sponsor and/or play leading roles in this session are requested to visit the website: <https://www.iseg-ggsd.com.ng>, register, and contribute as directed. The underlined Forum Chairs/Co-organizers should be contacted. The underlined Forum Chairs/Co-organizers should be contacted.

FB.9 FORUM ON GLOBAL NATURE RESERVES AND ZOOS

Nature reserves have various alternative names: wildlife preserve, wildlife sanctuary, wildlife refuge, etc. Usually, it is an area of critical flora, fauna, funga or geological features that are conserved to serve the population presently or in the future. Animals are kept in zoos (enclosures) for exhibition or research or conservation. The Wildlife Conservation Society (WCS) and the World Wildlife Fund (WWF) implement many programs on science, public education and enlightenment, conservation action and environmental stewardship to promote sustainable development. The utility of such programs, including ecotourism, will be discussed in this Forum. Organizations and individuals who would like to co-sponsor and/or play leading roles in this session are requested to visit the website: <https://www.iseg-ggsd.com.ng>, register, and contribute as directed. The underlined Forum Chairs/Co-organizers should be contacted. The underlined Forum Chairs/Co-organizers should be contacted.

FB.10 FORUM ON DRINKING WATER AND PUBLIC HEALTH

There is a strong relationship between drinking water quality and human health. This nexus is driven by several microbiological, chemical and physiological factors that pertain to the drinking water and human body. Safe drinking water is a critical factor in human health. Contaminated water is implicated in many diseases such as typhoid, dysentery, cholera and typhus, with significant impacts on human productivity and mortality in many parts of the world. Some examples of the sources and mechanisms of drinking water contamination are leaching of chemicals such as arsenic, fluoride, chromium and pathogens into boreholes; acid mine drainage; and acid rain into water bodies that supply untreated drinking water. Chemical contamination of drinking water sources can also result from many industrial activities. Thus, communities must utilize monitoring guidelines such as those of the World Health Organization (WHO) to develop water safety plans; and implement cost-effective drinking water treatment systems to safeguard public health. These management and technical systems will be discussed in this Forum. Organizations and individuals who would like to co-sponsor and/or play leading roles in this session are requested to visit the website: <https://www.iseg-ggsd.com.ng>, register, and contribute as directed. The underlined Forum Chairs/Co-organizers should be contacted. The underlined Forum Chairs/Co-organizers should be contacted.

FB.11 FORUM ON WAR AND THE ENVIRONMENT

The global distribution of armed conflicts is uneven although there are about 130 ongoing conflicts that involve 60 countries. These conflicts cover both state and non-state organizations and devastate environmental systems. Although most of the wars are fought in the Middle East, Sub-Saharan Africa, Eastern Europe and some parts of South Asia, arms manufacture and military preparedness operations elsewhere, also contribute significantly to environmental damage. Conflicts damage ecosystems; pollute water resources, land and air; and plant hazards such as land and sea mines as well as long-living radioactive substances. Even before the onset of physical war, development and sustenance of armed forces with their associated facilities and “war games”, involve largescale mining of critical minerals with accompanying dereliction of land; armament production in military industrial installation and arms testing facilities, all of which release pollutants into the environment. It is estimated that military land covers up to 6% of the global land surface. During active wars, oil and other industrial chemicals are spilled through bombing of installations, naval battles and biological toxin sprays and pipeline destruction. In some cases, chemical warfare has been practiced with the consequence of large-scale ecological damage. In this forum, Prof. Hilary I. Inyang will present a keynote speech and lead both a panel discussion and interaction with participants on the impacts of war on the environment. The underlined Forum Chairs/Co-organizers should be contacted. The underlined Forum Chairs/Co-organizers should be contacted.

FB.12 FORUM ON ENTREPRENEURSHIP ENFRANCHISEMENT AND TRADE

Living standards and sustainable development of societies can be enhanced by improvements in entrepreneurship enfranchisement, and trade. Entrepreneurship thrives on innovation and generates jobs through engagement of talented labor. Enfranchisement at an extended scale, spreads value chains across countries. Trade expands markets for produced goods, including surplus goods from local industries, and allows access to foreign resources and produced goods. Tariffs and other trade factors affect trade in geomaterials, agricultural products and fabricated materials. Minerals, cement, oil and gas and other commercial wares are examples. Interruptions in the supply chain that may be caused by conflicts, can spur the search for alternatives through research, direct material substitution or change of supply sources with attendant changes in spatio-temporal distribution of hazards and risks. For example, switching of oil shipping routes due to geopolitical conflicts can determine the pattern of oil spillages in the sea. This Forum will focus on the salient factors of entrepreneurship enfranchisement and trade, and their impacts on sustainable development. Organizations and individuals who would like to co-sponsor and/or play leading roles in this session are requested to visit the website: <https://www.iseg-ggsd.com.ng>, register, and contribute as directed. The underlined Forum Chairs/Co-organizers should be contacted.

FB.13 FORUM ON AGRICULTURE VALUE CHAIN AND FOOD SECURITY

Human civilization has been driven by agriculture for millennia. It provides livelihood and food security for billions of people globally. Over several centuries, innovative techniques have been introduced into agriculture. Among them are soil tillage, nutrient addition, irrigation and mechanized cultivation. On the seed development side, organically modified seeds have been controversially introduced. Beyond nutrition and food security, agriculture has supplied numerous raw materials for the manufacture of critical products for other industrial sectors in the forms of polymers, fibers, oils, chemical catalysts and fuels. However, many issues in agriculture still remain to be fully addressed. Among them are organically modified crops, machine-human labor substitution, raw versus processed crop export, standardization of products for export, climate change impacts on agriculture, empowerment of local farmers, and engagement of youth in agriculture. These issues and others will be discussed in this Forum. Organizations and individuals who would like to co-sponsor and/or play leading roles in this Forum are requested to visit the website: <https://www.iseg-ggsd.com.ng>, register, and contribute as directed. The underlined Forum Chairs/Co-organizers should be contacted.

FB.14 FORUM ON BUSINESS AND DEVELOPMENT FINANCE

The four critical pillars of sustainable development are economic development, environmental stewardship, population management and social equity. Invariably, these pillars require financial investments in enabling programs and projects without which desirable impacts will not be achieved. These investments can be in the forms of direct loans, investor contributions, grants, cooperative funds and venture-capitalist funds. Local, regional and international banking institutions should increase financing of development compacts, especially, at local levels for support of innovation and job creation financing. The role of banks, chambers of commerce and cooperatives in financing sustainable development programs and projects will be discussed in this Forum. Processes of investor solicitation and assessments by financing institutions will be discussed with examples of recently planned infrastructure development, agriculture and oil sector development projects in West Africa. The underlined Forum Chairs/Co-organizers should be contacted.

ORGANIZATIONAL SPECIAL SESSIONS (OSS) AND INITIATIVES AT THE 2026 ISEG/GGSD MEGA SYMPOSIUM

Several organizations that target global and regional sustainable development have decided to hold their special sessions and communicate their initiatives at 2026 ISEG/GGSD. The special sessions are briefly described. Individual organizations are represented by the Session/Event Organizers/Coordinators listed below the session descriptions. They are responsible for implementation of their session plans. Interested participants are advised to contact them directly. Each organization is responsible for designing its special session according to its organizational objectives.

OSS.1: ISEG EXPOSITIONAL SPECIAL SESSION

The International Society of Environmental Geotechnology (ISEG) is an international professional organizations that is a multidisciplinary organization dedicated to solving global environmental challenges through advanced engineering practices. The international society bridges technical earth sciences with social science policy to address critical geo-ecosystem issues. Since establishing its international symposium series, ISEG has coordinated cross-border research, academic forums, and field demonstrations focused on contaminated site remediation, geohazard mechanics, climate change adaptation, and sustainable development frameworks. By connecting academics, engineers, and regulators across its major regional hubs, the society translates raw subsurface data into actionable environmental policies and green engineering solutions. It is one of the major organizers of this ISEG/GGSD 2026 Mega Symposium. Its membership is open to all professionals in the earth sciences, geoengineering fields, ecological and environmental fields as well as intersections of these fields with other disciplines that pertain global sustainable development. ISEG was co-founded by Prof. Hilary I. Inyang and Prof. Hsai Yai Fang at the University of Massachusetts in 1996 and later registered as a bonafide international professional society with its global headquarters at the University of North Carolina Charlotte in 2004 with Prof. Hilary I. Inyang as its first President. ISEG is presently headquartered in Nanjing University in Nanjing, China with Prof. Shi Bin of Nanjing University and Prof. Chao-Sheng Tang of the same university as President and Secretary-General, respectively. In this session, ISEG leaders will review the history of the organization and welcome new members into ISEG with information on future plans of symposia, special editions of journals, webinars, special study and research opportunities and other benefits.

CO-ORGANIZERS

- **Prof. Zhixiong Zeng**, Email: zhixiongzeng@nju.edu.cn

Pg. 18

OSS.2: AFRICA INSTITUTE OF SOUTH AFRICA AND BRICS EXPOSITION SPECIAL SESSION

The Africa Institute of South Africa (AISA) is a premier research institute and think tank dedicated to the socio-economic, political and historical study of the African continent. Headquartered in Pretoria, South Africa, it was established in 1960. It combines scholarly research with policy analyses to promote unity, peace, development, and democracy across Africa. It collaborates with BRICS, the international organization that links Brazil, Russia, India, China and South Africa (BRICS) and has for several years embarked on global sustainable development initiatives and projects. At the Human Sciences Research Council (HSRC) of South Africa which is the host of AISA, new initiatives are being developed to promote sustainable development of particularly the Global South. In this special session, program leaders from HSRC will exhibit these initiatives through presentations and discussion with the objective of promoting collaboration with other organizations within and outside Africa. Interested persons are urged to register for this Mega-Symposium at: <https://www.iseg-ggds.com.ng/>. In order to participate in this special session, please contact the co-organizers stated below for a role as a panelist or discussant in the session.

CO-ORGANIZERS

- **Prof. Charles Hongoro**, Email: CHongoro@hsrc.ac.za, Tel: +27 66 006 5123
- **Dr. Wilfred Lunga**, Email: WLunga@hsrc.ac.za, Tel: +27 066 073 2199

OSS.3: DISASTERS AND REVIVAL OF THE GLOBAL ALLIANCE OF DISASTER REDUCTION (GADR) SPECIAL SESSION

GADR is a diverse, international, non-governmental organization (NGO) that networked more than 1000 professionals and 100 supporting organizations in 70 countries between 2004 and 2013. GADR which was headquartered at the Global Institute for Energy and Environmental Systems (GIEES) of the University of North Carolina-Charlotte, NC, USA, was established in 2001 with the mission of facilitating global cooperation, communication, coordination and collaboration among United Nations agencies, academia, and public and private organizations that have missions and programs relevant to natural and technological hazards. The organization was officially certified in 2003. It comprises administrators, policymakers, educators, researchers, technologists and emergency service officers from government agencies, the private sector and NGOs. Their responsibilities and interests embrace the reduction of disasters from natural and technological hazards and introduction of cost-effective disaster reduction concepts into programs for sustainable development, disaster-resilient communities and environmental management. In this special session, the history and utility of GADR will be discussed in the context of the increasing frequency and severity of natural and technological disasters. A plan for revival of GADR into a much stronger international organization will be presented. Interested persons are urged to register for this Mega-Symposium at: <https://www.iseg-ggsd.com.ng/>. In order to participate in this special session. Please contact the co-organizers stated below for a role as a panelist or discussant in the session.

 - **Prof. Shen-En Chen**, Email: schen12@charlotte.edu, Tel: +1 704 305-6866

OSS.4: AFRICAN ACADEMY OF SCIENCE (AAS) SPECIAL SESSION

The African Academy of Sciences (AAS) is a non-aligned, non-political, not-for-profit pan-African organization headquartered in Nairobi, Kenya, established in 1985 to drive sustainable development through science, technology, and innovation (STI). Located at 8 Miotoni Lane, Karen, it recognizes excellence, acts as a think-tank, and implements STI programs across Africa. This session is aimed at presenting the aims, objectives and programs of the AAS including its fellowship requirements, operational protocols, international initiatives and engagements, and support for youth, women and continental development programs. Interested persons are urged to register for this Mega-Symposium at: <https://www.iseg-ggsd.com.ng/>. In order to participate in this special session. Please contact the co-organizers stated below for a role as a panelist or discussant in the session.

OSS.5: ESTABLISHMENT OF ADWA VICTORY PAN-AFRICAN UNIVERSITY (AVPU) SPECIAL SESSION

This special session at ISEG/GGSD 2026 is the launching pad for establishment of the Adwa Victory Pan-African University (AVPU). The Adwa Victory pan-African University is a proposed Pan-African institution inspired by the 1896 Adwa Victory, a historic symbol of African unity and resistance against colonialism. The university aims to promote African-centered education, research, innovation, and leadership while advancing indigenous knowledge and intellectual sovereignty across Africa and the diaspora. In 1924, the Adwa Great African Victory Association (AGAVA) was founded to celebrate the Adwa Victory Anniversary at squares, museums, parks, heritage sites libraries, schools, scholarships, universities, statues, films, and a handbook translated and published in different languages. The project also supports the goals of the African Union Agenda 2063 and the UN Sustainable Development Goals for Africa by fostering continental integration, innovation, and intellectual independence. Through partnerships with organizations such as the African Union, African Development Bank, UNESCO, and UNDP, the Adwa Pan-African University seeks to become the intellectual backbone of Africa's "second liberation." It's evolving continental steering Committee co-chaired by Prof. Mammo Muchie and Prof. Hilary I. Inyang with Prof. Thokozani Simelane as Executive Director. This session will focus on the historical background of the Ethiopian and indeed, African victory at the Battle of Adwa in 1896; and the mission, vision, organizational structure, mode of operation, financing plan and key institutes of AVPU; and the schedule of activities that will lead to the establishment of AVPU. Organizations and individuals who are interested in joining the effort on the establishment of AVPU are requested the AVPU Secretariat that the following three Pan-Africanists currently lead.

CO-ORGANIZERS

- **Prof. Thokozani Simelane**, Email: tsimelane@hsr.ac.za, Tel: +27 79 269 0663

OSS.6: AFRICAN NETWORK OF WOMEN ENTREPRENEURS' INITIATIVE (ANWEI) SPECIAL SESSION

This session is organized by the African Network of Women Entrepreneurs Initiative (ANWEI–Nigeria) to showcase the vision, mission and strategic plans of the organization in recognition of the critical role that female African entrepreneurs need to play in sustainable development of Africa toward achievement of Africa Agenda 2063. ANWEI is a non-profit, non-political, pan-African organization established to promote the economic empowerment of women across Africa through entrepreneurship, financial inclusion, and strategic partnerships. ANWEI was founded to unite women who share common ideals and to foster strong bonds of understanding, collaboration, and solidarity among women entrepreneurs, investors, and professionals. The organization exists to address long-standing challenges faced by African women, particularly limited access to capital, inadequate entrepreneurial support, and exclusion from mainstream economic opportunities. Our work focuses on encouraging and strengthening female entrepreneurship by providing practical support, resources, training, and tools required for the development, growth, and sustainability of women-led businesses. ANWEI actively promotes diversity, inclusion, and equity within the African entrepreneurial ecosystem while amplifying the economic contributions of ANWEI. Interested organizations and individuals who would like to sponsor ANWEI in general and this special session in particular are requested to register for this Mega-Symposium at: <https://www.iseg-ggds.com.ng/>. In order to participate in this special session. Please contact the co-organizers stated below for a role as a panelist or discussant in the session.

CO-ORGANIZERS

- **Amb. Lady Ola-Rose Ironkwe - Country Rep.**, Email: rosieironkwe@gmail.com Phone: +234 803 267 4204
- **Josephine Mwuese Ejimah**, Email: Joejimah@gmail.com Phone: +234 815 500 0027

Student members of the Planning Committee of at the 5th International Society of Environmental Geotechnology Intermediate Symposium in Nanjing, China, November, 2025 with the Keynote Speaker, Prof. Hilary I. Inyang.

OSS.7: THE INTERNATIONAL FORUM FOR PEACE AND DIPLOMACY (IFPD) SPECIAL SESSION

The International Forum for Peace and Diplomacy (IFPD) is an active global, non-partisan diplomatic organization focused on fostering peace, dialogue, and sustainable development, with significant activity in Nigeria in 2026. Led by Director General Amb. Michael Timothy Adeniran, the organization focuses on youth inclusion, education, and security. By prioritizing education, media communication, and cultural preservation, the IFPD serves as a vital platform for track-two diplomacy, empowering the next generation of African leaders to build resilient, peaceful communities. This event will focus on the strategic plan, operational structure and format of the new international organization. Particularly, the organization welcome partners and fellows into its fold. It looks forward to collaboration with other organizations. Interested persons are urged to register for this Mega-Symposium at: <https://www.iseg-ggsd.com.ng/>. In order to participate in this special session. Please contact the co-organizers stated below for a role as a panelist or discussant in the session.

- **Mr. Miguel Gonzalez**, Email: miguel4.gonzalez@gmail.com, Tel: +251 7130 21831

OSS.8: JOBS FOR AFRICA NOW (JFAN) OUTREACH SESSION

JFAN was conceived as a multi -community, self-help socio- economic operating system designed to function centrally across all 55 countries of Africa, supported by culturally grounded national chapters and coordinated regional conferences. Beyond the continent, JFAN also maintains a robust global presence through Global African Diaspora (GAD) Conferences of Chapters, spanning communities of Africans living and working outside Africa. JFAN is presently consolidating its academic, technical and human- resource capacities in preparation for the full constitution of its program leadership at community and national levels. These structures will in turn, aggregate into standing Board of Trustees, Guardians and Leaders. In its final evolution form, JFAN is intended to emerge as a substantive International Inter-Governmental Organization. Its parent company, IQ Ent., will continue to staff, steward and advance its developmental mission, contributing strategically to its leadership, institutional stability and global sustainability. Interested persons are urged to register for this Mega-Symposium at: <https://www.iseg-ggsd.com.ng/> and contact the JFAN Executive Director or the associates listed below. In order to participate in this special session. Please contact the co-organizers stated below for a role as a panelist or discussant in the session.

CO-ORGANIZERS

- **Amb. IDAH Onyilokwu Kingsley David**, Email: Jobs4africanow@gmail.com Phone: +234 704 283 4725
- **Queen Amina**, Email: queenaminatv@gmail.com, Tel: +234 806 629 2006

5th ISEG Intermediate Symposium in China, November, 2024

SHORTCOURSES AT THE ISEG/GGSD 2026 MEGA-SYMPOSIUM

ISEG/GGSD 2026 Mega Symposium provides opportunity for interested participants to enroll for training in two sets of short courses for Continuing Education Credits (CECs). The two (2) categories are Technical courses (TCs) and policy courses (PCs). Each courses carries two continuing credit education credits, and courses completion certificate will be provided to trainees. All the courses will be held on Saturday, August 15th and Sunday, August 16th 2026, following the specific schedules tabulated below for all the courses. Recognized experts will serves as instructors for all the courses. Course contents and Professional background of all the instructor will be provided in the full symposium document that will be released on June, 20th 2026 and installed in the Mega-Symposium website: <https://wwwiseg-ggsd.com.ng>. Interested Trainees are requested to register at the website and pay the course fee indicated below (USD \$500). Trainees do not need to register for the Mega-Symposium because the workshop are treated separately. Payment for workshop enrollment should be made at the website: <https://wwwiseg-ggsd.com.ng>. Expert who which to serve as instructors or co-instructors for any of the courses should contact Mr. Misbahu Yunusa Yusuf, Email: yunusamisbahu@gmail.com, Telephone: +234 813 078 1117, by May, 31st 2026. The organizing committee also welcomes grants by organizations or individual to support scholarships for students and professionals who cannot afford the registration fees for the training workshop. The deadline for registration for the courses is July 4, 2026.

TW.1 OIL AND GAS INDUSTRY TRAINING WORKSHOP

Coordinators: Mr. James Eneji Odey, Email: jamesodey2015@gmail.com

Mr. Emmanuel Udede, Email: emman.udedeh@gmail.com

The courses listed below constitute TW.I the oil and gas industrial training workshop to be held on Saturday, August 15 from 8:30am to 4:30pm. Course contents will be provided in the final program. Enrolled Trainees will also participate free of charge in the forum FA.9 on Innovations and Opportunities in the Oil and Gas Industry.

TW.1A: Fundamentals of Large-scale Waste Recycling Systems

TW.1B: Principles and Practice of Exploration Geophysics for Oil and Gas

TW.1C: A Prime Course on Industrial Waste Water Treatment Technologies

TW.1D: Analysis and Control of Oil Spills

TW.1E: Environmental Law Principles and Practices

TW.I F: Principles of Project Management

The total tuition fee for enrolment in the Training Workshop - TW.1 is **USD 3000** and can be paid at <https://wwwiseg-ggsd.com.ng>.

TW.2 GLOBAL SOUTH MID-CAREER TRAINING WORKSHOP

Coordinators: Dr. Daniel Nyanganyura, Email: daniel.nyanganyura@ru.ac.za

Prof (Madam) Sharizad Dahlan, Email: sharizad@istic-unesco.org Tel: +603 2698 4540

Ms. Esther Ogunjobi, Email: estheroluwabunmi222@gmail.com

The course listed below constitute TW.2 Global South Mid-Career Training Workshop to be held on Sunday, August 16, 2026 from 8:30am to 4:30pm. Course contents will be provided in the final program. Enrolled Trainees will also participate free of charge in Forum FA.14- Forum on ICT and Artificial Intelligence (AI) for Sustain able Development.

TW.2A: Database Management Systems

TW.2B: Principles and Processes of Business Plan Development

TW.2C: Fundamentals of Conflict Resolution: From Local Communities to Nations

TW.2D: Principles of Project Management.

The total tuition fee for enrolment in the Training Workshop - TW.2 is **USD 2000** and can be paid at <https://wwwiseg-ggsd.com.ng>.

COURSE CODE	COURSE TITLE	DURATION	INSTRUCTOR
TC.1	Fundamentals and Applications of Geographic Information Systems	3hrs	TBA
TC.2	Fundamentals and Field Applications of Contaminated Sites Remediation Techniques.	3hrs	TBA

PLANNED SPECIAL EDITIONS OF INTERNATIONAL JOURNALS USING SELECTED MEGA SYMPOSIUM PAPERS

Based on scientific quality, some submitted abstracts will be selected for invitation of their authors to submit full-length papers for use in the development of special editions of high-level refereed international journals that are listed below, along with their impact factors and cite scores. Themes have also been selected for the special editions pending the expected receipt of several abstracts in their category. The Mega-Symposium Part A and Part B Scientific Committee Members are expected to be the guest editors of the planned special editions of journals. Interested experts should contact the respective Chairs of the International Scientific Committees. Part A (Prof. Chao-Sheng Tang: iseg@nju.edu.cn) Part B (Prof. Thokozani Simelane: TSimelane@hsr.ac.za).

THEME OF THE SPECIAL JOURNAL EDITION FROM THE MEGA SYMPOSIUM (From Either Part A and B)		PART of SYMPOSIUM	TARGETED REFEREED JOURNAL FOR DEVELOPMENT OF SPECIAL EDITION			GUEST EDITORS TBS = To Be Selected
			TARGETED REFEREED JOURNAL	IMPACT FACTOR	CITE SCORE	
1.	Re-definition and Re-scoping of Environmental Geotechnology	A	<i>Environmental Geotechnics</i>	2.6	6.3	TBS
